

NEW REPAIR & SYSTEM TEST CAPABILITY

Sew Eurodrive DeviceNet / Profibus Control System

Technical Bulletin

This is the Sew Eurodrive DeviceNet / Profibus control system. It is composed of a Sew Eurodrive AC inverter drive that accepts all its commands through an Allen Bradley DeviceNet or Siemens Profibus interface. All of the systems functions are controlled via the AB Panelview 550 touch screen. Through the touch screen, you can select either the AB DeviceNet or the Siemens Profibus interface for system communications control as well as all drive functions.

12 Month In-Service Warranty

All Units Are System Tested

No Charge Evaluation
