90Kw AC MOTOR LOAD STAND & VIBRATION BED

K+S Tamworth are pleased to announce the addition of a new AC drive test rig.

This unique test stand combines a 100Kw back-to-back load test with a vibrating bed, originally designed to simulate conditions on mobile straddle cranes found at container ports throughout Europe.

The vibrating bed can be programmed to ramp in frequency and amplitude, taking a load of 150 Kgs safely.

The Siemens Master-drive is fed by a 170A common rectifier, and has the capability of Profibus control and monitoring, via PC or S7 Plc

Note. The rig can be used to test large drives and Soft-starts from all manufacturers

ALL UNITS ARE SYSTEM TESTED

***12 MONTH IN-SERVICE WARRANTY**

Unless otherwise stated at time of quotation

***NO CHARGE EVALUATION**

Priority repair orders may incur in evaluation fee
