INDRAMAT DKS DIGITAL AC SERVO COMPACT CONTROLLER

The Indramat DKS is an intelligent digital ac servo compact controller that can be set up for multiple configurations depending on the plug-in cards installed. Our test stand is set up for the most common of these which includes a DLC01.1-FW control interface, a DEA4.1 system I/O, and a DEA 5.1 extended I/O. A dedicated set of I/O control boxes were built and an Indramat CTA keypad is used for programming. Drive status and parameters can be observed with the RS232 computer interface.

ALL UNITS ARE SYSTEM TESTED

***12 MONTH IN-SERVICE WARRANTY**

Unless otherwise stated at time of quotation

***NO CHARGE EVALUATION**

Priority repair orders may incur in evaluation fee
