## REULAND BRAKE

These brakes are direct acting, magnetic brakes. It is a motor brake. They come in a face mount and foot mount version. The ones pictured are foot mount versions of two different sizes. These brakes also come in AC or DC versions. They work with an armature, a stator, and a friction disk. The most common applications are crane travel, hoist duty, high inertia or frequent cycling, high friction loads, holding, and stackers. The style and type is dependent upon the particular application and load requirements.
