VICKERS PVB SERIES PISTON PUMPS

These are Vickers PVB series, variable volume, compensator controlled, piston pumps. These are model series PVB 15. Basically all of the Vickers PVB series pumps look the same except for size up to the PVB 90 series. The PVB 5 and 6 use the same housing, PVB 10 and 15 use the same housing, PVB 20 and 29 use the same housing, the PVB 45 and 45A are different housings, as well as the PVB 90. The two pictured are face mounted units and also come in flange and foot mount versions. These pumps are very common and basic hydraulic units.

ALL UNITS ARE SYSTEM TESTED

***12 MONTH IN-SERVICE WARRANTY**

Unless otherwise stated at time of quotation
