## Hydraulic Cylinder Repair

Repair of most manufacturer's hydraulic cylinders.

- Single or double end.
- Repair / replacement of rods, seals, piston heads, gland nuts, and tubes
- Any diameter up to 14" and lengths to 18'
- Pressure testing after repair to 3,000 psi
- Replacement seals rated up to 6,000 psi and 500 deg F

All cylinders received for repair are:

- Disassembled
- All components cleaned and inspected
- Rods are measured for straightness & wear
- Tubes are measured for wear
- Pistons measured for wear
- Seal / wear band grooves measured and inspected
- All seals are replaced (Viton / Buna-N) as required
- Gland bushings measured & inspected
- Rod chroming as required

All repaired cylinders are dynamically tested to verify proper operation and leak free performance.

**ALL UNITS ARE SYSTEM TESTED**

**\*12 MONTH IN-SERVICE WARRANTY**  
Unless otherwise stated at time of quotation

**\*NO CHARGE EVALUATION**  
Priority repair orders may incur in evaluation fee
