

Estic Tool Repair and Calibration Services

Our sister company, Encore Systems, is now an OEM-Certified Repair & Calibration Center for Estic Tools!

In partnership with Encore Systems, we can handle your ESTIC tools and controllers. Encore is now an **OEM-certified repair and calibration center for Estic tools and controllers**. With this certification, Encore provide expert **repair and calibration services** to ensure your tools perform at peak efficiency.

Our capabilities include servicing **corded inline, right-angle, and pistol tools**, as well as **cordless pistol and right-angle tools**. Additionally, we support **fixtured tools**, all handled with precision at Encore's facility in **Brookville, Ohio**. With our expertise and commitment to quality, Encore Systems ensures your Estic tools are maintained to the highest standards.

Corded Tools

- Direct drive and Pulse
- EH2-R/H/T Series
- Handy 2000 Lite/Plus
- Handy 2000 Touch

Cordless Tools

- Direct Drive and Pulse
- EHC-R/T/L Series
- Handy 2000 Cordless Controllers

We can also calibrate and service older versions of Estic tools, based on part availability.
